- Programming: C# (Object-Oriented Programming)
- Tools & Version Control: Git, GitHub, Vercel
- Key Competencies: Responsive UI/UX Design, RESTful API Integration, Debugging, Problem-Solving

PROFILE SUMMARY

Ambitious Computer Science student at DHA Suffa University and a passionate Frontend Developer specializing in building responsive, user-centric web applications. Proficient in React.js, Tailwind CSS, and modern JavaScript, with a strong focus on clean code, aesthetic UI/UX design (including dark mode aesthetics), and performance optimization. Seeking to leverage my technical skills and problem-solving abilities in a professional frontend development role.

WORK EXPERIENCE

Aykeys

MARCH 2026_MAY 2026

Frontend Developer

- Specializing in the development of responsive frontend interfaces for enterprise-level web applications.
- Collaborating with cross-functional teams to translate design concepts into clean, maintainable, and highly interactive UI components.
- Optimizing frontend performance and cross-browser compatibility to ensure a seamless user experience.
- Implementing modern CSS frameworks (Tailwind/Bootstrap) to enhance the visual appeal and responsiveness of web applications.

Nexe-Agent

MAY 2026_JUNE 2026

Frontend Developer

- Developing intelligent web applications with a focus on seamless frontend architecture and user experience.
- Building an AI-Powered Resume Builder using React.js, implementing dynamic data state management and real-time user input handling.
- Integrating AI features into web tools to enhance user interaction and efficiency.
- Collaborating in an agile environment to ensure high-quality, scalable code delivery.
